There are many benefits of taking part in physical activity; however it is important to screen each individual to ensure we have a full background of your medical history prior to taking part in any exercise programme. If we feel it is necessary, we may refer you to your doctor to confirm they are happy for you to exercise, prior to starting your programme.

YOUR INSTRUCTOR WILL TREAT ALL INFORMATION CONFIDENTIALLY.

All answers need to be true and as accurate as possible. It is important these answers are honest as this will affect your ability to perform exercise and will allow your instructor to develop a safe and appropriate exercise plan.
